Be Self-Reliant

One of the most deplorable results of the world depression of the past five years, and especially unfortunate because the effects will be carried forward into the years to come after the depression has become a memory, is the breaking down of the morale of many people who for years have been unemployed. Unable to obtain employment anywhere, forced to accept government and municipal assistance, and with no immediate prospect of any change in the situation, the temptation to throw up their hands, abandon all self-effort, to help themselves, and to sit down in despair or idly accept the situation, has proven too strong for many people.

Enforced idleness, living without working and doing so, at the expense of the State, has apparently convinced some people that it is no longer necessary that they try to work even when work can be obtained. Such people now take the attitude that they do not owe anything to their country; but that their country owes them a living whether they work for it or not; that the State having provided for them when work could not be obtained, this State can just continue going on providing for their actual necessities of life. When employment is offered to this type of individual, he proceeds to compare the wages he will receive in exchange for his labor with the amount of his relief while unemployed, and decides that the increase in the amount he will receive does not compensate him for the fact that he will be required to work for it. He prefers idleness and relief.

At all times there have been men and women of this type, but their number has been greatly increased during the past five years. Such people now look upon government relief as a right; and they exercise their ingenuity, not in the direction of helping themselves, but to organizing in groups to bring pressure upon governments to enlarge the distribution of relief, the cost of the same to be paid, of course, by those who do work and are willing to work.

This break down in the morale of so many people is, let it be repeated, one of the most deplorable and most sinister effects of the world depression. It has not demoralized the vast majority of people who have been forced against their will to accept government assistance in these times, nor has it to any great extent affected those who can trace their difficulties to climatic conditions over which neither they nor governments have any control. But there has been a great loss of self-reliance, and most unfortunately so among young people in their late teens and early twenties who, above all classes, should be most self-reliant. The stronger characters are not affected, or will rise above the temptations of the moment, but the weaker ones show a marked tendency to drift with the tide, rather than to exert themselves and battle the waves of adversity until the tide does turn in their favor.

No useful purpose is served by painting a gloomy and discouraging picture unless it can be used to point a moral and teach a lesson. And it is the duty of all those who realize the existing tendency, and who appreciate its dangers, both present and future, to throw the whole weight of their experience and influence into the scale to maintain and promote the spirit of self-reliance, to teach the beauty of courage and the ugliness of despair, to encourage, to inspire, to lead, all our many worthy organizations have a very special and particular duty to discharge in this connection. Their responsibility is greater now than in times of abounding prosperity.

It is the duty and responsibility of all to formulate the truest idea in the minds of people that in its only useful and growing sense, life is a struggle. We learn to walk not by being carried, but by painstakingly making the effort to walk. So long as a young child is carried it will never learn to walk, and until it does walk it will remain weak. Self-reliance must be taught throughout life, or life will be a tragedy for those who have failed at it.

We rightly pray "Lead us not into temptation," because temptation should be avoided, but temptation comes nevertheless in every moment and activity of life. So it is we further pray, "But deliver us from evil." Strength comes from offering resistance, but those who would protect us against all hazards and the pitfalls of inexperience, merely enable rather than strengthen us.

So long as the necessity continues for government aid to those who cannot help themselves because of causes and conditions beyond their control, such government aid must be provided. No sane person thinks otherwise. But it should be the ambition of every man and woman to get along with a minimum of such aid and rely on their own efforts to the fullest possible extent while looking forward to the day when they can joyfully surrender all such aid and stand again on their own feet and face the world with courage in full reliance upon their own initiative and powers.

Canadian Scientist Honored

Dr. Gussow Elected President Of American Phyto-Pathological Society

A distinctive honor has just been conferred on Dr. H. T. Gussow, of Ottawa, Dominion Botanist, Dominion Experimental Farms, by his unanimous election to the presidency of the American Phyto-Pathological Society. The annual meeting was held in Pittsburgh, Pa., three days ago. The society was organized in 1909, and has about 900 members, among whom are the leading plant pathologists and mycological research workers in Canada and the United States. It is the only society of its kind in North America and is one of the most notable throughout the world among those of which scientific agriculturists are members. Dr. Gussow is a charter member and his written and oral contributions to the society and to agriculture generally, are considered as particularly valuable. He is regarded as one of the outstanding authorities on botanical science.

NOT A RHEUMATIC PAIN FOR 4 YEARS

70-Year-Old Man Praises Kruschen

A man who once suffered severely from rheumatism writes: "For a long time I suffered with rheumatism, and at one time was laid up for about nine weeks. About five years ago I was advised to try Kruschen. I did so, and have continued using them ever since. Kruschen did the trick; as I have not had a rheumatic pain for over four years. I am nearly 70 years of age, and feeling fit, and always able for my day's work—thanks to Kruschen."—A. S. Kruschen dissolves away those needle-pointed crystals of uric acid which are the cause of all rheumatic troubles. It will also flush these dissolved crystals clean out of the system. Then if you keep up the "little daily dose," excess uric acid will never form again.

The Abundant Vitality of Cod Liver Oil PLUS PLEASANT TASTE

For over fifty years doctors have specified "Scott's Emulsion" wherever the bone-building, strengthening qualities of pure cod liver oil were indicated. For Scott's Emulsion is more than just cod liver oil. Scott's Emulsion is pure cod liver oil, emulsified for easier digestion, greater efficiency and pleasant taste.

Accepts Appointment

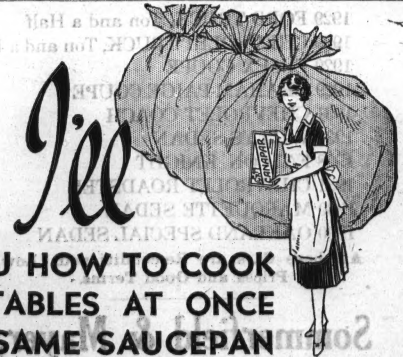

Leitch To Be Chairman Of The Dominion Marketing Board
Prof. A. A. Leitch, former professor of economics at the Ontario Agricultural College at Guelph, said he had accepted the chairmanship of the Dominion marketing board subject to ratification of the appointment by the Dominion cabinet.

Prof. Leitch is also a prominent tobacco grower. The Dominion marketing board was established last year to regulate marketing of natural products under the Natural Products Marketing Act. Dr. George S. H. Barton, deputy minister of agriculture, chairman since the board was formed, has asked to be relieved of his duties.

How can the average family save when the neighbors are always doing something they can't afford?

The Largest Carillon
At Bourville, England, the carillon installed in the tower of the village school has now become the largest in the world. The bells originally numbered 22, but a local family of distinction have made gifts of bells from time to time until the total has reached 48. The largest bell weighs over three tons, the smallest 12 pounds.

TELL YOU HOW TO COOK 3 VEGETABLES AT ONCE IN THE SAME SAUCEPAN with no odor... less cost... better results

Place each in its own bag made from Canapar Cookery Parchment. You seal in all the mineral salts and flavor, this way... and there's no odor, not even from cabbage or cauliflower. You need only use ONE burner—turned low.

And vegetables are only one food that can be cooked better with Canapar. For instance, when boiling or steaming fish, all the goodness and flavor are retained—and there's no odor—no sticky pots and pans to scour. This alone makes Canapar worth using.

Remember that Canapar won't absorb odors. You rinse it off—hang it up to dry and use it repeatedly. Try it as a dish cloth, especially for glasses—it does not shed lint.

March Written By Prince

Lifting Tune Composed For Bagpipes Is Called "Majorca"

The news that the Prince of Wales had written a slow march to be played on the bagpipes caused great surprise in great circles.

Pipe-Major F. MacDonald, of the Scots Guards said the slow march had an "invigorating and inspiring lift." He said the Scots Guards played the prince's tune at the Tower of London a few days ago. No one knew who was the composer.

The prince wrote the slow march "Majorca."

Majorca—While you were gone, my dear little Willie swallowed a bug, but don't worry, I had him take in those pockets.

WORLD HAPPENINGS
BRIEFLY TOLD

Auditors of the Bank of Canada are J. A. Laflue, Montreal, and G. T. Clarkson, Toronto.

Germany's foreign trade balance dropped by \$380,700,000 within the past year.

Enough playing cards were sold in United States during 1934 to encircle the world five times if laid end to end. All told, 45,351,707 packs were sold.

The greatest anti-air attack manoeuvres ever held in Germany will take place in Berlin from March 19 to 22, it was officially announced.

The British government has recommended that the petition of the state of Western Australia for secession from the Commonwealth of Australia be considered by a joint select committee of both houses of parliament.

The Spanish government is considering a vast public works program to help the jobless, which contemplates an outlay of about \$138,800,000, the principal enterprise being the construction of a Gibraltar tunnel linking Europe with Africa.

J. F. McQueen, Saskatoon, was elected chairman of the Canadian Hall Underwriters' Association at the annual meeting in Winnipeg. John Wilson, Winnipeg, was elected vice-chairman. Directors included G. A. Hewart and F. L. Thornton of Regina.

Donald M. Kennedy, U.F.A. member for Peace River, gave notice he would move a resolution in the House of Commons that the Peace River country of Alberta should be connected with the Pacific Coast by a direct railway outlet.

Hiding Place Of Gold

Offer To Show South African Government Where Boer Treasure Is Located

Capt. A. W. Lewis, retired importer who claims decorations for Boer war services, announced at Berkeley, Calif., that he had offered to show the South African government the exact location of the long-sought Boer treasure cache, estimated worth \$35,000,000.

Lewis said he had written to the high commissioner for the Union of South Africa at Pretoria, Transvaal, making two conditions: That he be compensated for revealing the hiding place of the gold, and that the British government sponsor an expedition to recover the gold and protect him against civil lawsuits by any mine owners claiming the property upon which the cache stands.

Received By President

Elaborate ceremony attended the arrival of four Canadian blons at Warsaw, Poland. The blons, donated to Poland to form the nucleus of a herd which may eventually run wild in a national forest, were christened aboard ship and later personally received by President I. Moscicki.

Western Canada is extremely fortunate that threshold grain is not attacked to any extent by stored-product pests. Eastern Canada, particularly Ontario, is not so fortunate, as severe losses may be sustained by the ravages of the granary weevil, not only in elevator storage but also in farmers' bins.

Treasures At Windsor Castle

Bibles Belonging To General Gordon And Kitchener Carefully Preserved

The corridors of Windsor Castle are hung with magnificent pictures; but in a conspicuous place is a crystal casket, resting on a white silk cushion. Inside the casket can be seen a worn, shabby little Bible, and one wonders how it came there. It is the Bible which belonged to General Gordon, and was carried by him all through the long siege of Khartoum. After the hero's death, the sacred volume was given to Queen Victoria by his sister; and it has been preserved ever since in the manner described. Not far away is a Bible which belonged to Lord Kitchener. This is, of course, a comparatively recent addition to the treasures of the King's Berkshire home.

In the armoury is a mishapen morsel of lead worth nothing, but priceless. It is a relic absolutely unique, being the bullet which wounded Nelson at the Battle of Trafalgar. Another memento of Britain's great naval hero is his bust, which is supported by a pedestal made out of part of the Victory's mainmast. The marks of French shot can still be clearly seen on this historic piece of wood.

There are now over 100 agricultural colleges in the Soviet Union.

The average man's hair grows seven inches annually.

Little Journeys In Science

SPACE

(By Gordon H. Guest, M.A.)

All of the heavenly bodies, including the earth upon which we live, are separated from each other by space. For years scientists have been asking themselves the question "what is space"? There is a wide difference of opinion about it. Scientists have shown that the earth, in moving through space, does not drag the ether along with it, as it apparently should if the ether were present. Hence some think that the ether does not exist. No one, however, seems to think of space as void, or empty. While some scientists object to the term ether, they still believe that there is "something" in the vacuum between the planets.

All light, heat, and cosmic rays, as well as enormous numbers of electrons, pass through this vacuum in reaching our planet. Above and at the earth's surface, air molecules dart hither and thither at the speed of about one-quarter of a mile per second, but through very short distances, thus bombarding our bodies with a pressure of about fifteen pounds per square inch.

The upper layer of the atmosphere is known as the Kennelly-Heaviside layer. The constant bombardment of this layer of air by electrons from space causes the air to become electrically charged, thus reflecting radio waves and causing fading. Scientists have sent out intermittent radio pulses which were photographically recorded on an instrument three miles away. By comparing the direct and reflected impulses, the latter were shown to have travelled 70 miles upward and back again. Scientists have reproduced the sky's blue by bombarding electrically charged molecules of air with electrons and it is believed that electrons from space bombard the electrically charged molecules of air in the Kennelly-Heaviside layer of the atmosphere, are at least partly responsible for the blue color of the sky.

Quite Impossible

Science Service says few seeds of any field crop have been found to germinate after 30 years, and scientists account for the marvelous tales of ancient "mummy wheat" in Egypt, sprouting by saying that the seed must have been recently placed in the tombs to astonish the gullible.

Job had patience—but he never had to wait six years for a job.

It takes an idle man to tell others just how a thing ought to be done.

SUNDAY SCHOOL LESSON

FEBRUARY 10

PETER PREACHES AT PENTECOST

Golden text: And Peter said unto them, Repent ye, and be baptized every one of you in the name of Jesus Christ unto the remission of your sins; and ye shall receive the gift of the Holy Spirit. Acts 2:38.

Lesson: Acts 2.
Devotional reading: Philippians 2: 5-11.

Explanations And Comments

Peter's Sermon: Jesus fulfilled the Prophecy of Joel, verses 14-21. Peter's first object was to prove that Jesus fulfilled the Old Testament prophecies and expectations in regard to the Messiah; accordingly, he told them that the events of Pentecost which had so amazed them were but the fulfillment of Joel's prophecy (Joel 2: 28-32), that at the coming of the Messiah God's Spirit would be poured forth, and old and young, men and women, bond and free, would see visions and speak divine truths.

Peter's Sermon: Three Proofs that Jesus is the Christ, verses 22-35. First, there were the miracles which his hearers themselves had witnessed: second, there was the resurrection, of which they all were witnesses; God had raised Jesus from the dead to higher life and wider power. Third, there was the pouring forth of the Holy Spirit at Pentecost, which they had seen and heard: Jesus still lived and cared for his followers, for it was he who had sent the Spirit. Furthermore, the resurrection and exaltation fulfilled a prophecy of David, as given in Psalm 110:1.

The Climax of Peter's Sermon, verses 36. "This sermon would have had no effect without an application. No more will sermons now." The sermon had results because there was one little word of two letters in the application: that word is "ye".

Peter's Exhortation and Its Result, verses 37-41. Peter's words, especially his appeal to prophecy, were convincing to the Jews; and the home-thrust at their consciences—"whom ye crucified"—pricked their hearts, convinced them of their sin and they cried, "Brethren, what shall we do?" How can we be freed from our guilt?

"Repent ye, and be baptized every one of you in the name of Jesus Christ unto the remission of your sins, and ye shall receive the gift of the Holy Spirit," was Peter's exhortation. They must not only repent of their sins, but they must change their view in regard to Jesus Christ: The One whom they had regarded as a false Christ, they must accept as the true Christ, and they must acknowledge this by being baptized.

Peter's hearers heeded his words and there were added unto them in that day about three thousand souls.

Arena For Olympic Games

Men Working Constantly On Sports Ground In Germany

The vast sports ground are working in West Berlin, where men are every day and night to have everything ready for the next Olympic Games, has been officially given the name of "Reichssportfeld", which has been preferred to the one which signified "Olympia-Town." Streets leading up to the arena are all being renamed. Certain peaceful residents will in future find themselves living in "Fighting Arena Avenue," and dignified thoroughfares will also show in their new nomenclature the great importance attached to the new sports ground.

Trying Experiment

Marconi To Test Television Between Italy And United States

A television experiment between Italy and the United States is to be conducted in a few months' time by Signor Marconi according to an announcement made by the famous inventor when he spoke to the United States at the inauguration of a new Italian radio station. He said that he would show his listeners by television the apparatus he had used for his recent experiments during which he navigated a ship by wireless.

We reprove faults in others which are different from our own.

It is far better to be bent on economy than broke on extravagance.

PUBLIC NOTICE TO POULTRY PRODUCERS

Public Notice to Poultry Producers is hereby given that the Manitoba Poultry Marketing Scheme, the Saskatchewan Poultry Marketing Scheme and the Alberta Poultry Marketing Scheme submitted to and as recommended for approval by the Dominion Marketing Board on January 12, 1935, under the provisions of the Natural Products Marketing Act, will be voted on by the Poultry Producers of these Provinces on February 16th to 23rd inclusive. Please note the following:

- (1) Only poultry producers who own or control a flock of more than 25 poultry are entitled to vote.
- (2) Forms for registration and voting may be obtained from your local Postmaster by signing a Voters' Register at the Post Office.
- (3) Before completing your Registration Form and Ballot read carefully the instructions enclosed with them to which you will attach your Postmaster.
- (4) Inform marking your Ballot study the scheme on which you are voting. A copy of the scheme is enclosed in your Registration Form.
- (5) The return envelopes for enclosing your completed Registration Form and Ballot must be sent in by Post Office not earlier than February 16th and not later than February 23rd. No postage stamps are required.
- (6) Poultry producers have the right to inspect the Voters' Register and to challenge the vote of any producer whose name appears there, provided such protest, with reasons, is signed by at least two producers and mailed to the Returning Officer at Winnipeg, Regina or Edmonton not later than the 25th day of February, 1935.

Dated at Ottawa this 22nd day of January, 1935. R. WEIR,
Dominion Minister of Agriculture.

FARMER DEBTOR IS PROTECTED FOR A 90-DAY PERIOD

Ottawa, May 16.—(By wire.) Hon. E. N. Rhodes, finance minister, to strengthen the farmer's creditor arrangement set passed at the last session of parliament and now operating in every province in the Dominion.

Amendments proposed would extend the period during which a creditor applying for composition of his debts would be immune from prosecution by his creditors would permit the appointment of temporary members of provincial boards of review to act in the event of the incapacity of a permanent member, including the chief commissioner, and authorize appointment of one or more members of a provincial board to investigate and report on any circumstance affecting a debt composition scheme not acceptable to debtor or creditor.

Under the original act a debtor who sought composition of his obligations was immune from any prosecution by his creditors while the application had been pending for a period of 90 days. Because of the pressure of applicants to be dealt with by official receivers it was decided to extend the period to 90 days, with further extension by the court if it were deemed advisable.

Because provisions were required all acts of provincial boards must be by the full membership of the boards, it was decided to amend the statute so that an ad hoc commissioner could be selected in event of a permanent commissioner becoming incapacitated or otherwise prevented from attending.

Unemployment Insurance

Advisory Committee And Boards Of Referees To Administer The Act
Ottawa.—One problem the government will face in setting up the machinery for its unemployment insurance legislation will be selection of personnel for the commission to administer the act, the advisory committee and boards of referees.

Labor and employers will be represented equally on all bodies, and selection of these representatives will have to be made after consultation with the classes concerned. It is understood the consultation will be, so far as possible, with responsible executives of the organizations of labor and industry concerned. All appointments will be made by the governor-in-council. In the case of boards of referees panels will be drawn up in every district. Personnel will be drawn from them as and when required. Also in each district one person shall be named as chairman to act whenever a board of referees is required to function.

Only the unemployment and social insurance commission will work full time and at fixed salaries. The advisory committee and referees will act when required and will receive compensation and expenses.

Senate Defeats Protocol

Majority Vote Against United States Joining World Court

Washington.—Despite a marked concession by the administration and direct pressure from the White House, the senate sent down to defeat the protocol for United States adherence to the world court.

The vote was 52 for the resolution of ratification to 36 against. This lacked seven votes of the required two-thirds of those present for approval.

Coming after three weeks of torrid debate, and with tension plainly marked across the floor and galleries of the senate chamber, the vote stood as perhaps the most surprising twist of the present session.

Friends and foes of adherence at once declared the senate's rejection would mean the court's failure, which has been before the senate at intervals for 12 years, is dead for some time to come, if not permanently.

W. N. U. 2084

Russia Prepared For War

Red Army Has Been Increased To 340,000 Men

Moscow.—A report of Kaptanov went up from 3,000 Communists' threats as the vice-commissioner for defence told the seventh all-union congress of Soviets that the last four years have seen the Red Army grow from 300,000 to 340,000 men.

"We are being intensively prepared against us," Mikhail Tuchachevsky, the vice-commissioner, told the delegates gathered from all the vast stretches of the Soviet Union to review Bolshevik progress since the sixth congress in 1931.

"But let our enemies try our borders," he added, "definitely the strength of our army under the command of Voroshilov (Russian Marshal) will be sufficient for defence."

Aviation, Tuchachevsky said, has developed his own 330 per cent in the last four years.

Giving an example, he noted percentages to illustrate their increase, the vice-commissioner also listed these gains:

Light tanks, 760 per cent.
Medium-stated tanks, 700 per cent.
Submarine, 35 per cent.
Machine-gun, 25 per cent.

Heavy artillery and munition, he said, has been greatly increased and improved.

Fortifications along the eastern and western frontiers have been strengthened, the vice-commissioner said.

Likely To Receive Pension

Five R.C.M.P. Members May Get Credit For Military Service

Ottawa.—The House of Commons gave first reading to a bill to credit a few members of the Royal Canadian Mounted Police with military service in South Africa for purposes of pension.

Mr. Guthrie had third reading of a bill to amend the Criminal code delayed in order to change it. It would permit of a six-man jury in criminal trials in Saskatchewan, and would include the province of Alberta, where juries of six have been the rule. In the amendment Mr. Guthrie said the law officers of Alberta asked that no change be made respecting that province for any system dated back to the time before Alberta entered the Dominion as a province.

Third reading was given to bills amending the interpretation act respecting observation of Remembrance Day, amending the Representation act respecting the two Hamilton constituencies and amending the Pension act.

Mr. Guthrie had third reading of a bill to amend the Criminal code delayed in order to change it. It would permit of a six-man jury in criminal trials in Saskatchewan, and would include the province of Alberta, where juries of six have been the rule. In the amendment Mr. Guthrie said the law officers of Alberta asked that no change be made respecting that province for any system dated back to the time before Alberta entered the Dominion as a province.

Missing Airman Safe

B.C. Pilot Has Been Found At McLeod Lake

Vancouver.—Pilot R. L. "Ginger" Coote of Quenell, B.C., unreported since he took off Jan. 18 for Finlay Forks to pick up an injured prospector, was reported safe by Pilot Gil McLaren of Prince George, who flew in search of the missing airman.

News that Coote had been discovered safe at McLeod Lake, approximately half way between Quenell and Finlay Forks, was relayed here from Prince George. So details have been received but it was understood Coote would be able to fly his own plane back to Quenell.

Bridge Contract Is Let

Ottawa.—Contract for construction of a bridge across the Cascade river on the Calgary-Banff highway, authorized under the Public Works Act of 1934, was awarded Buchanan Construction Company, Calgary, at a cost of \$15,895, it was revealed in an order-in-council tabled in the House of Commons by Minister of the Interior T. G. Murphy.

Woman Journalist Dead

Montreal.—Former member of the parliamentary press gallery at Ottawa and one of Canada's outstanding women journalists, Mrs. Genevieve Lipsett Skinner died in hospital here after a lengthy illness.

SIR FRANCIS FLOUD

Here is a new portrait of Sir Francis Floud, now British High Commissioner, who arrived in Ottawa recently to take over the office relinquished by Sir William Clark.

Ready For Speed Test

Sir Malcolm Campbell Arrives With Record Blue Bird

New York.—Sir Malcolm Campbell, prince of speed, has come back to the United States with a hope of 300 miles an hour over Daytona Beach's golden sands resting in his crated, seven-ton juggernaut Bluebird, and the feeling this perhaps was his last gamble with roaring death.

"Theoretically she's faster than my old record of 272.108," he said. "I can't say more. But I will be satisfied with 300 miles an hour."

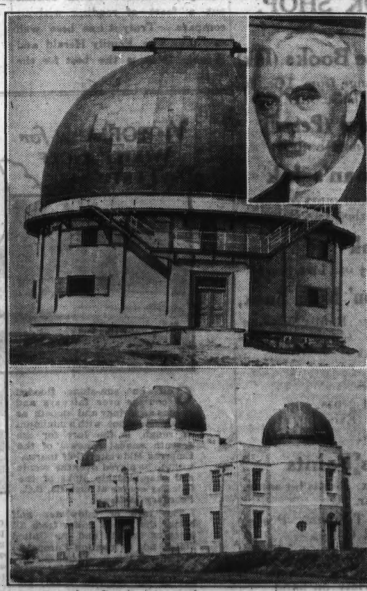

The slim Englishman, in his 50th year, highlighted after his former record at Daytona Beach in 1931; has every confidence his entirely rebuilt monster will eclipse any speed man ever before accomplished on land.

Tentatively the time for Sir Malcolm's newest attempt on the land speed record has been set for between Feb. 14 and 20. He left for Daytona with Lady Campbell and his 11-year-old daughter, Jean, who arrived with him on the Aquitania.

Head Of Underwriters

Winnipeg.—J. F. McQueen, Saskatoon, was elected chairman of the Canadian Hail Underwriters' Association at the annual meeting here. John Wilson, Winnipeg, was elected vice-chairman. Directors included G. A. Hewitt and F. L. Thorton of Regina.

CANADA'S MILLION-DOLLAR OBSERVATORY OPENS IN MAY

The new Dunlap observatory, which has been erected at Richmond Hill Ontario, is to be formally opened on May 31, 1935, when thirty prominent scientists will be present. Among the astronomers who will take part in the opening ceremonies will be Sir Frank Dyson, former Astronomer Royal. Our pictures above show parts of the imposing observatory which will be one of the most modern of its kind in the world. (Inset) Sir Frank Dyson.

Jan Army Advancing

Heavy Fighting Is Reported In Mongolian Territory

Tokyo.—Heavy fighting in which Japanese regular soldiers played a decisive role broke out in bitter sub-zero weather on the disputed frontier where Outer Mongolia, which Tokyo asserts is under the domination of Soviet Russia, adjoins Manchoukuo.

A brief despatch from Heilung, capital of the state which Moscow and the capital of the other powers consider a creation and protectorate of the Japanese army, described for the Kengwa (Japanese) Agency the advance of an expedition of Japanese and Manchoukuoan cavalry into the area.

They were pushing their mounts over the frozen steppes of wild Mongolia territory, said the despatch, in temperatures of 30 below zero. It was in this same advance that they attacked and captured Kalkha Miao, driving the Mongols before them.

Japanese general headquarters at Hankow frankly announced the participation of Japanese in the expedition. They said its object was to "expel invading Mongols from Manchoukuo territory."

Economic Planning

Economic Council To Be Established For Canada Soon

Ottawa.—Legislation establishing a national economic council will be introduced in the House of Commons soon after the royal commission on mass buying makes its report. Premier R. B. Bennett made the announcement in the House.

After Speakerman, United Farm member for Red Deer, prompted the prime minister's statement when he proposed a resolution urging national economic planning. It would have committed the house to the principle of instituting "scientific treatment of economic problems for the present practice of uncontrolled competition and unguided individual effort."

He envisioned a vast economic laboratory where social problems replaced test tubes. After two Toronto Conservatives, John R. MacNeil and T. L. Church, supported the Speakerman resolution, it was withdrawn at the suggestion of the prime minister who pointed to the forecast in the throne speech that an economic council would be established.

HEAR STORY OF KIDNAPPING OF TWO YEARS AGO

London, Ont.—The \$30,000 kidnapping of a London brewer, Charles...

...for more than two years, was brought to light following mentioning of it during the trial of David Melner, charged with the kidnapping of John E. LaRatt last August for \$100,000 which was not collected.

While Inspector Cosman of the Ontario provincial police was on the witness stand, J. O. Newman, crown prosecutor, mentioned in remarks to presiding Mr. Justice G. P. McFarland the words "Burns kidnapping."

The words stirred nothing to the fact that at the trial of Melner on what had been considered Canada's first ransom kidnapping.

Quizzed later, acting Crown Attorney Norman Newton said his remark had referred to Mr. Burns, kidnaper of the victim.

The words stirred nothing to the fact that at the trial of Melner on what had been considered Canada's first ransom kidnapping.

It was about 1 a.m., when he was approaching the Redout street bridge, that another car drove up and crowded him to the curb. Three men were said to have forced Burns from his car and driver him near Windsor to a place where they held him in negotiations were made to collect \$30,000, threatening death to their captive if the money was not paid.

"Burns was taken back to London at the end of a week, to the corner of Dundas and Richmond street, where he was allowed to go to the bank and obtain from the manager \$30,000. The ransom money was wrapped in a package and handed to the kidnappers in front of a dignitary within sight of more than a dozen persons.

Mr. Burns had sold his interest in the brewery a short time before he was abducted.

Police investigated the crime, but the kidnappers failed to bring tangible results.

Shortly after he was released, Mr. Burns left London to take up residence in Montreal.

B.C. Floods

Long Time Yet Before Flood Waters Subside

Vancouver.—Although at least two months will elapse before the flood waters are pumped from the inundated Sumas prairie, the Fraser valley as a whole was slowly returning to normal.

Water on the prairie was reported as high as ever and Chilliwack district was still without electric power, but interurban services were resumed as far as Abbotsford and, with the exception of Agassiz telephone communication has been restored to all parts of the valley.

The situation on the prairie will not be changed until the 400-foot break in the Sumas river dyke is repaired. Pumps were working to capacity and water was running rapidly through the flood gates into the Fraser river.

Another big slide has been reported at Kilgair, where two persons lost their lives in a slide, and it is feared further slides may occur. Families driven from their homes there were being housed at Abbotsford. Other settlers driven from their homes in the lower Fraser valley were returning as flood waters subsided.

Siam's King To Abdicate

Report States He Will Not Return To Country

Singapore.—King Prajadhipok of Siam has decided to carry out his idea of abdication, and will not return to his country. It was reported by a reliable source.

A prince, not yet 18, whose name was not learned, is to be crowned in his place and will rule under a council of regents.

Great Britain was the market for 80 per cent of the world exports of frozen and chilled beef in 1933.

Legislature Opens Today.

The Legislative Chamber at the Government buildings is now ready for the opening of the fifth session of the Seventh Legislature of the Province, which takes place today, the 7th.

The Edmonton Garrison has already issued orders for the attendance of the military at the function, and a 18-gun salute will be fired as the opening ceremonies are performed inside.

Disma Ye Hear the Fibreth?

Thousands of hilted Scotsmen all over the world are shaking their heads mournfully and wondering what the world has come to when Scotsmen can't even win a bagpipe playing championship, which now rests with the pipers of the Jewish Lads' Brigade of London, an all-Jewish group of players. By unanimous vote of the judges, all Scotsmen and veteran bagpipers, the bag-piping of the Jewish players was hailed as the best in all Scotland, England, Ireland or Wales.

HON. C. STEWART WANTS FREE FARM MACHINERY

Hon. Charles Stewart, former Minister of the Interior, last week gave notice that he would move a resolution in the House of Commons proposing farm implements and machinery should be free from customs duties.

The Edmonton West member's resolution said "the best interests of Canada demand that the burden of customs taxation be lessened on the instruments of production in the agricultural industry."

The Hon. Charles' proposal to make the entry of imported farm implements free would accomplish this purpose.

Gyped on a Piece of Pie.

Lunch counter addicts throughout the world will rally, at least morally, to the support of John C Henderson, Oakland, Cal., says an exchange. Mr Henderson has filed suit for \$5000 against John Williams, a restaurant proprietor, because the slice of pie Mr Williams served him was too small. So meagre, in fact, was the slice, the plaintiff deponent, that it caused him "humiliation, embarrassment and mental anguish." Most lunch-counter stool sitters frown when similarly gyped by a barely hash-slinger, but say nothing. It's about time some body got mad and spoke up.

"Big Bill" Was Wise.

"Why is it that you fat men are always good natured?" somebody once asked President Taft.

To which Mr Taft replied: "The fat men have to be good natured, seeing they can neither run or fight."

FUNERAL OF GOLDEN SPIKE OLD TIMER.

The death occurred in the Golden Spike district on Feb. 1st of Mrs Emelia Kreuger. Deceased was aged 75 years 5 months 5 days, having been born in Russia on July 27, 1859. She came to Canada from Germany on Nov. 23d, 1924. Her husband had predeceased her Nov. 23, 1923.

The funeral took place on Sunday, Feb. 2, at 2 p.m. A service was held in the Zion Lutheran church, at Golden Spike, by the pastor, Rev H Fry. Interment was made in the churchyard.

She is survived by 1 daughter Mrs Karl Geistlinger, of Golden Spike; and 1 son John Kreuger.

John Armbruster had charge of the funeral arrangements.

Card of Thanks.

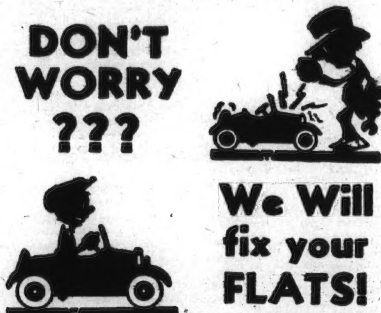

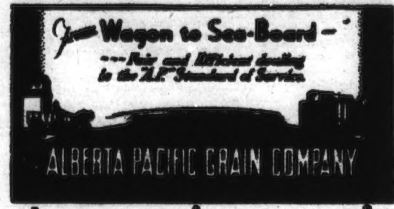

The Family of the late Mrs Emelia Kreuger wish to thank their friends for the kind notes shown and for their expressions of sympathy, on the occasion of their recent bereavement.

Steady Progress.

During the last year or more no publication has shown more remarkable strides in the matter of increased circulation than has The Family Herald and Weekly Star. This is not strange, for it is evident that in time of stress people are prone to cut down on the number and variety of magazines and papers coming into their homes, and they find in The Family Herald and Weekly Star a paper which, at \$1 per year, gives them every variety of reading, for old and young, all combined in this one publication. Every issue overflows with practical farming ideas, up-to-the-minute articles, short stories, together with a weekly newspaper section which rounds out a feast of reading without compare. Truly it has been well said that The Family Herald and Weekly Star is the best for the least.

VICTORIA set for WINTER GOLF FESTIVAL

Golf on sun-shine flooded greens as spring and smooth as in summer, but with a minimum of rough, is the lure for the seventh annual renewal of the Empress Midwinter Golf tournament, to be played over the scenic and championship links of the Oak Bay course at Victoria, B.C., February 15-23.

The lure of midwinter golf brings the ardent golfer from all parts of Canada and the United States, not to mention Europe, to compete in this now famous tournament, inaugurated seven years ago by the Empress Hotel, Victoria and the Canadian Pacific Railway with a view to telling the world that Canada has in its courses on Vancouver Island, weather conditions that rival those farther south in winter time. There is no lack of prizes and some of them rank high in the world of golf trophies.

The M. W. Beatty Trophy still remains the chief award, but the prize has been augmented greatly. The Victoria Chamber of Commerce set up its fine cup as the reward for an open amateur championship — the Beatty Cup being for handicap play in men's and women's divisions; the late Jack Watson, noted British Columbia sportsman, added his cup for "inter-district" team matches played for by four-man teams, and the Victoria Rotary club put up a handsome rose bowl to reward the fair golfer who turned in the best gross

qualifying score, and the Victoria Golf Club and Royal Colwood Golf Club also have been helpful in increasing the array of silver ware to more than fifty fine pieces.

For 1936, the sea-girl, short and tricky Oak Bay course of the Victoria Golf Club has been chosen as the scene of the 7th Empress tournament, with dates February 15-23 inclusive.

Lay-Out shows the first Green; the M. W. Beatty Cup; the Oak Bay Club House, and the Empress Hotel.

TOWN OF STONY PLAIN.

Notice to All Household and Occu-
pants of Property.

NOTICE IS HEREBY GIVEN that by an amend-
ment recently passed to the Town's Fire Preven-
tion Bylaw it was enacted as follows:

"All ashes removed from any stove, grate or
furnace shall be carried out in metal or other fire-
proof vessels properly protected so as to prevent
danger to property and shall forthwith be deposited
in metal containers of not less than forty five
gallons capacity. Such containers shall be provided
with metal covers and shall be placed in the alley
behind the lot at least two feet from any wooden
structure."

Householders are required to govern themselves
accordingly and to take notice that failure to comply
with the provisions of the Bylaw will render them
liable to the penalties thereby provided.

The Council requests the co-operation of the
citizens with a view to minimizing the risk of fire
within the Town.

By Order of the Town Council.

JAS. MALLOCH,

Secretary-Treasurer.

HOCKEY WITH THE PRIZE RING TACTICS

Three who like their hockey a
la jiu-jitsu had a small dish served
'em at the local rink on Thursday,
according to tales told by the sur-
vivors. The local seniors were on
the ice, and their opponents were
the Onoway team. The name of
the chap who tried refereeing the
game could not be obtained, but it
said he is to be seen motoring fre-
quently thru town.

The first periods were compara-
tively quiet, the only outbreaks
being the renewals between play-
ers of a few private wars carried
over from former games, where the
innocent-looking hockey stick be-
came quite a weapon when used
for offensive purposes.

'Twas in the last period that the
Grand Slam occurred, when the
players were in an animated huddle
and the railbirds jumped, the
rails, and the combatants were not
only the players but seemed to in-
clude the rest of the populace. The
home team claim they won the
game.

Thru a misunderstanding, the
First-aid squad did not put in an
appearance.

Cowmen Up in Arms.

Members of the local lodge of
the Amalgamated Society of
Cowmen and Chicken Grow-
ers were much in evidence at
the meeting of ratepayers in
the town hall on Friday last.
Despite the cool weather, a
lot of the members are all-hot
and bothered since the 1934
Councillors passed the bylaw
restricting the running at large
of cattle, or as it is called
The New Deal for Cows.

The picketing out system
for cattle has been in vogue
here for a number of years,
but it is said to be not suit-
able at the present time. With
regard to keeping an animal
securely tethered in one place,
experiments conducted last
summer showed that once a
strong-minded Bossy gets a
taste of blue-joint she finds it
an easy matter to pull up a 4
foot stake to get at the 2 foot
grass.

At the Friday meeting, one
spokesman suggested the buy-
ing by the town of a 60-acre
field for the purpose of turn-
ing the town cows into.

With the idea of having
the town's obnoxious Cow
Bylaw rescinded, it is said an
effort will be made to have 3
representatives of the Cow
Society on the town council
for this year. And the predic-
tion is being made of the pos-
sibility of a Cowman mayor for
1938.

O'Donnell—Singer

At Peace Lutheran church,
Spruce Grove, on Tuesday,
January 22d, Miss Florence
O'Donnell, of the Wisterburn
District, was united in mar-
riage to Mr Henry Singer,
son of Mr and Mrs John
Singer, of Spruce Grove dis-
trict. Rev H. Kuring, the pas-
tor, officiated.

If There Were No Inducement

In discussing Mayor McGee's
remark "The lending of money to
the increase of a halibut-breath,
is still tarry," the Calgary Alber-
tan remarks: "Money, working as tight, has
how much tighter would it be if
there were no inducement at all to
lend it? How would commerce be
financed, how would the public
utilities be conducted if Mayor
McGee's idea of no financing fac-
ilities prevailed?"

EMPLOYED TEACHERS SHOULD AID THE OTHERS

Regarding the discussion which
has been going on in the daily
press for some time on the subject
of a reduction in teachers' salaries,
a writer in the Edmonton Journal
has this to say:

"Allow a teacher of long ex-
perience to say a word. The
writer taught in a village school
in Ontario (Peterboro County)
for three years at a salary of \$350
a year. This was in the 90's, when
there was no crisis. I boarded in
the village hotel during most of
that period. I paid the premium on
a \$2800 life insurance policy.
I fail to see that the teachers
have any grievance on the small
out on salaries, especially at a
time when there are hundreds of
qualified teachers in Alberta re-
ceiving nothing whatever in the
way of salary. I would suggest
that these favored ones would
have the public spirit to allow
their less favored brothers and
sisters to substitute for them for
say a month or so in the year.
Instead of demanding the pound
of flesh, why not throw ourselves
into the trenches of human ser-
vice in this crisis, the greatest
challenge ever thrown out to
manhood and womanhood in cen-
turies. Some may say that 40
years ago teachers, as others, did
not have the overhead expenses
which exist today, such as radios,
cars, movies etc. No, we had no
such luxuries at all, but who will
say that we were less happy and
useful in our lives for these?"
